Case Study

Project Title:

7-11 Reigate High Street

Client:

Hartnell Taylor Cook

Date:

June 2015

Project Value:

£700,000

Programme Duration:

45 Weeks

Project Description:

Following a tender process, A & E Elkins were selected to carry out internal and external works to a privately owned residential block that sat directly above some retail outlets on the High Street of Reigate

Works:

- Scaffold to High Street including lighting and pavement license
- Rooflight installation
- New roof to walkway area adjacent dwellings
- New kitchen and bathrooms to 9 number bedsits
- Electrical rewires and external lighting
- Metal repairs to walkway area
- New UPVC window to dwellings and office space to the front of the building
- Brickwork cleaning and repairs
- New boiler and heating installation
- Window renewals and repairs (UPVC, Aluminium and Timber)
- Internal and external decoration
- Class "o" coatings

All windows were completed by our own in house window department from initial design and approval drawings to fitting on site and aftercare. As part of any project an aftercare booklet is handed to both clients, residents or any property users to detail maintenance issues and defect period contacts.
